

SMART THINGS. SMARTER HOMES.

Business Brochure

ABOUT US

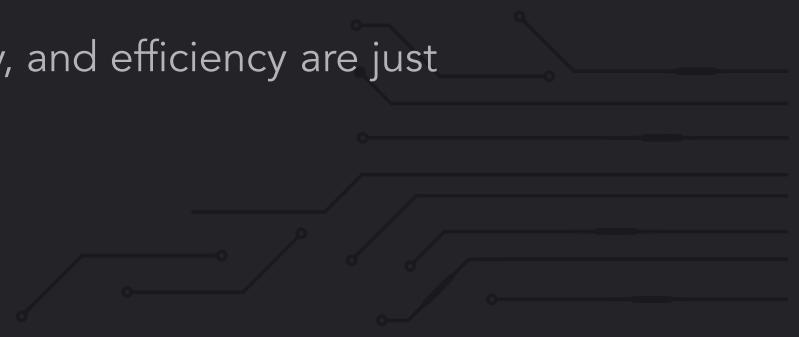

Smart homes is a journey & We are just getting started

MIBAiO is an IoT consumer electronics startup revolutionizing the way people interact with their homes. Founded in 2021 by a team of passionate innovators, MIBAiO is dedicated to making smart home technology accessible, sustainable, and user-friendly. Our mission is to upgrade, not replace, existing home appliances, turning them into intelligent devices that make your life easier and greener.

At MIBAiO, we believe in the power of innovation and sustainability. Our products are designed to seamlessly integrate with your current setup, reducing electronic waste while enhancing your living experience. With a strong focus on research and development, we're constantly pushing the boundaries of what's possible in the smart home sector.

Join us on our journey to make every home a smart home, where comfort, security, and efficiency are just a tap away.

CONTROLS THAT MATTER

Technology that is never out of fashion

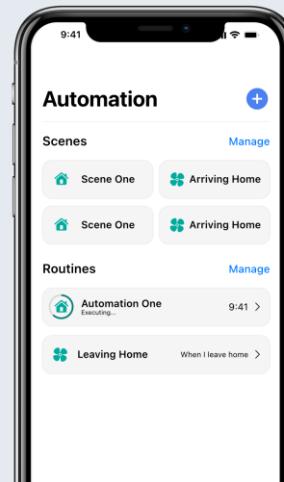

Your Smart Home, Your Way!

Customize your home's automation. You have the power to control and monitor according to your preference from anywhere in the world.

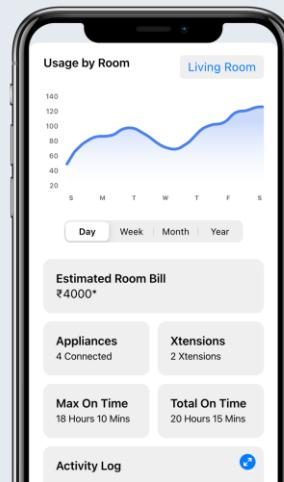

Automate your devices

Set timers to turn on/off devices automatically on time or based on your location. Create scenes to run multiple devices with just one tap

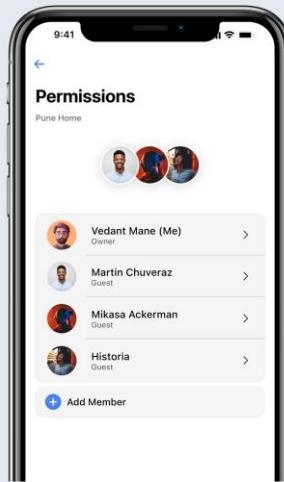

Energy Insights at a Glance

Gain clear view of your energy consumption patterns. Track usage, analyze trends and make informed decisions.

Share access, Hassle free!

Grant access to your family and friends to operate your smart home devices effortlessly

OUR PRODUCTS

Engineered to perfection
Cutting edge technology

Xtension 4S

Converts 4 regular appliances to smart

Xtension 4C

Controls 5 appliances with Fan speed

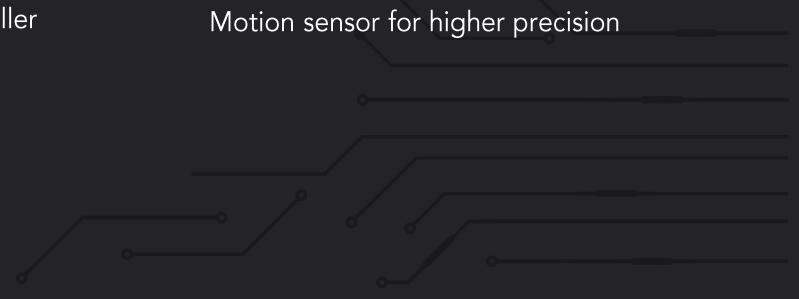

Smart remote

All-in-one Smart remote controller

Sense+

Motion sensor for higher precision

Xtension 4S

- Fits outside switchboard
- Converts 4 regular devices to smart devices
- 10A load capacity per device
- Voice control with Alexa
- Set daily/weekly schedules to run tasks automatically at desired time

(Variety of devices you can control)

Operating Voltage

100 - 250 V AC

Operating Frequency

50 - 60 Hz

Stand-by Power

< 0.2 W

No. of Nodes

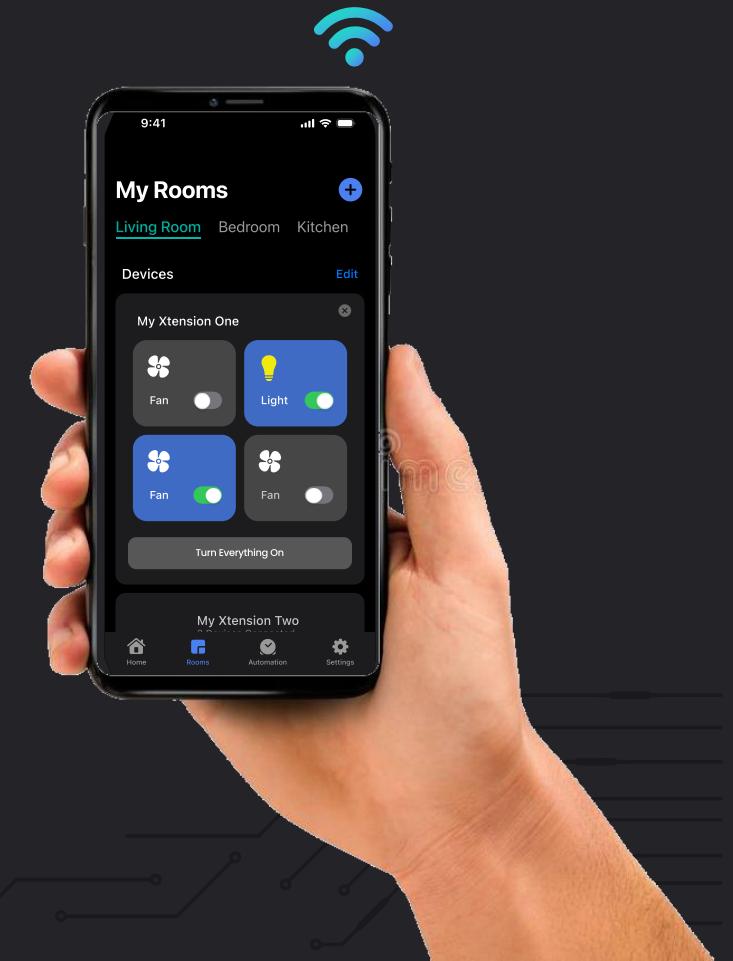

4 + 1 Fan regulator

Max. load per Node

7 Amp

Wireless Type

WiFi 2.4 Ghz BLE 4.2

Hybrid connectivity

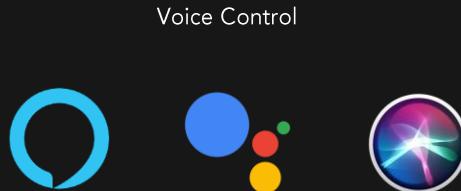

Synchronized status on each device

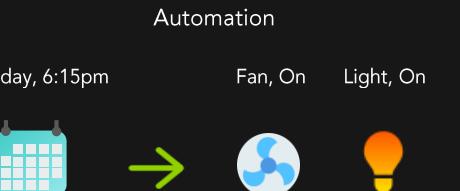

No additional hub required

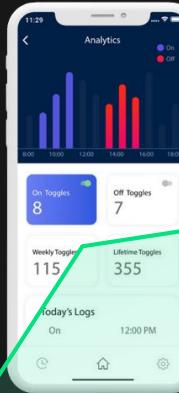

Works with any 2.4GHz WiFi router

Compatible with leading voice assistants

Every day, 6:15pm
Fan, On
Light, On
Schedule appliances to run automatically

Predict electricity bill on App

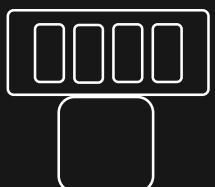

Xtension 4S

Unique Design
Incredible Performance

Contributing towards sustainable living for today and tomorrow

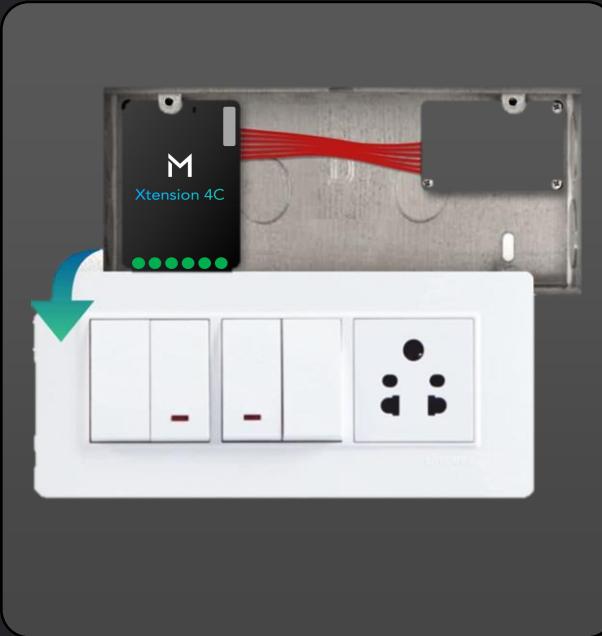

Fits Outside Switchboard

Variety of appliances you can control

Built-in surge protector

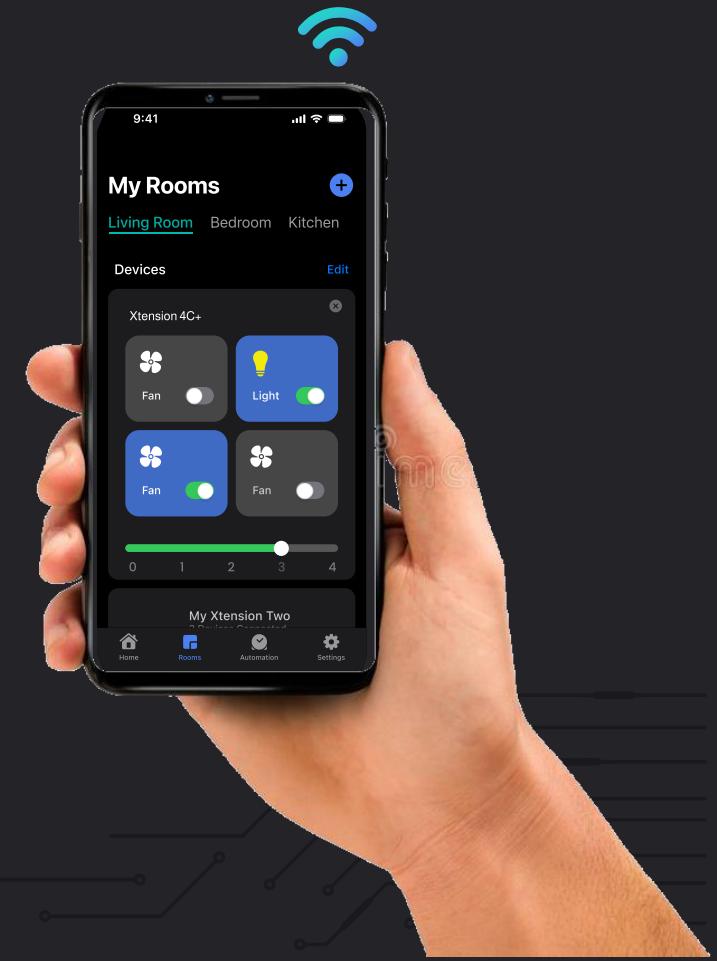

(Variety of devices you can control)

Xtension 4C & 4C+

- Fits inside switchboard
- Converts 4 regular devices +1 fan to smart devices
- 7A load capacity per device
- Voice control with Alexa
- Controls fan speed both digitally and manually

Frequently Asked Questions

✓ Can I trust that MIBAiO is fully secured and respects user privacy?

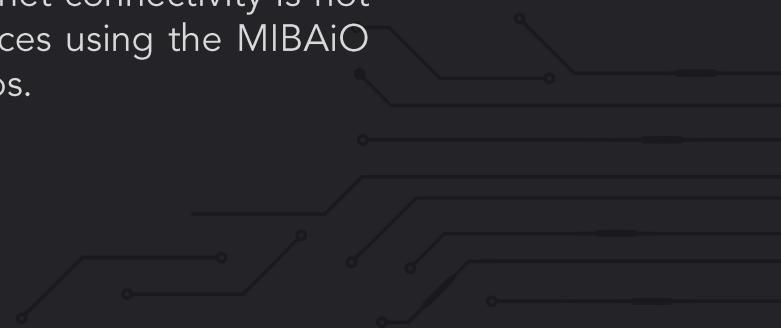

MIBAiO's product line is 100% [Made in India](#) and our top priority is ensuring the security of your home. We put security and privacy first when we designed MIBAiO's product line. MIBAiO does the processes over the cloud servers in [Mumbai](#), India. No passwords, home networks are shared with us. We adhere to strict privacy policies and compliance standards, giving you peace of mind while using our devices.

✓ What's in it for Professional Interior Designers?

Interior Designers stand to benefit greatly from incorporating MIBAiO's smart home solutions into their projects. Our products offer a seamless blend of [functionality](#) and [aesthetics](#), allowing designers to create smart, modern living spaces that enhance the overall experience for their clients. With features like App/voice control, automation, and energy efficiency, MIBAiO devices provide endless possibilities for customization and innovation in interior design projects.

✓ Does MIBAiO products work without internet ?

Yes, MIBAiO products are designed to work even without an internet connection. Our devices utilize local connectivity options such as [Bluetooth](#) to ensure seamless operation even when internet connectivity is not available. This ensures that users can still control and monitor their smart home devices using the MIBAiO app or other compatible methods, providing flexibility and [reliability](#) in various scenarios.

Why choose us?

MIBAiO

✓ Seamless Integration

MIBAiO' products work effortlessly with your existing home appliances. No need to replace what's already there—just **upgrade** and enjoy the benefits of a smart home with minimal disruption.

✓ Privacy

We take your privacy seriously. MIBAiO's systems are designed with **robust** security measures to ensure your data is protected and your smart home is secure.

✓ Sustainability

Our "**Don't Replace, Upgrade**" philosophy reduces e-waste by allowing you to enhance your current devices rather than discarding them. This not only saves you money but also helps protect our planet.

✓ Advance Technology

Our products utilize cutting-edge technology, from **high-precision** microwave motion sensors to **AI-driven** automation, providing you with the most accurate and reliable smart home experience.

✓ Made in India

Starting from our circuit boards to our cloud servers, everything is **100%** Designed, Manufactured, Assembled and maintained in INDIA.

✓ Proven Reliability

With thousands of satisfied customers and successful integrations, MIBAiO is a name you can trust. Our commitment to **quality** and customer **satisfaction** is at the heart of everything we do.
